Re: iReady Mathematics Program

I am excited to share that All Saints Catholic Academy is implementing a K-8 Mathematics program called i-Ready. Below, you will find information about the program and how we will be using it in the classroom and in our Academic Intervention Program.

What is i-Ready?
i-Ready is an online program that will help us determine your child's strengths and areas for growth, personalize their learning, and monitor their progress throughout the school year. i-Ready allows us to meet your child where they are and provides us with data to inform instruction.

*The **i-Ready Diagnostic** is an adaptive assessment that adjusts its questions to suit your child's needs. Each item a student receives is based on their answer to the previous question. For example, a series of correct answers will result in slightly harder questions, while a series of incorrect answers will yield slightly easier ones. The purpose of this is not to give your child a score or grade but to determine how to best support their learning.*

What can I do to help?
*To help prepare your child for the **i-Ready Diagnostic**, encourage them to:*
- *Try their best on each question and try not to rush.*
- *Try not to worry about questions to which they do not know the answers—remind them that it is expected that they will only get about half of the questions correct.*
- *Be respectful of other students who take longer to finish.*
- *Use scrap paper and pencil to show work for math questions.*

What happens next?
The i-Ready Diagnostic will provide results that help me identify your child's strengths and determine next steps for instruction. We look forward to sharing these results with you throughout the year and providing a learning experience that will engage your child while teaching important skills and concepts.
If you have any questions about i-Ready, please do not hesitate to contact me or the school. You can also learn more about i-Ready by visiting i-ReadyCentral.com/FamilyCenter.
