Dear Families;

A short update will come each day to your inbox regarding ASCA's Distance Learning Plans and words of assistance to help your child with this new form of learning.

- Available at www.ascaalbany.org is a resource of great websites that will enrich your child's distance learning experience, and informational articles for parents.
- I have added some great student friendly Google apps to our ascaalbany.org domain that students that have logged into their ASCA Google account (using the school issued email) will have access to (accessible at the waffle in the top right corner of Google screen). These apps and extensions are meant to add enriching activities, and expand the mediums of responses for older students.
- Currently, Nursery and PreK do not have ASCA google accounts, which will change this week. I will notify Nursery and PreK families when their student's ASCA Google account is active - allowing you to log in form them and enjoy the fun apps. Our domain is locked to only allow domain to domain use for all students. The "internet" will not have access to their accounts.
- If your child is in grades 5-8, please ensure they are working in Google Classroom every day! Younger grades have a mix of assignments, and teachers continue to update families and students at 8:30 and 2:30.
- Special area classes (Music, Art, PE, Tech) have reached out today, as those classes will reach out on Tuesdays and Thursdays.

I continue to pray for all our school families - stay well, stay safe.

Blessings,
Ms. Johnson

We are #ASCA Strong - Distance does not separate us!
